What are Infant/Early Childhood Mental Health Services?

- Services that provide information about child's growth and development
- Services to help caregivers and children ages 0-6 develop healthy relationships
- Home Based Services to provide caregivers and infant and/or toddler support
- Therapy to address ongoing mental health concerns such as post-partum depression
- Referrals provided to meet families' needs
- Therapeutic services to enable caregivers to resolve conflict within the family

What to Expect From an Infant/Early Childhood Mental Health Specialist

1. Weekly Visits
2. Encouragement and guidance on interacting with your child, age 0-6
3. Guidance and support in times of crisis
4. Help in understanding your child's development
5. Help connecting with your community for support, resources and coordinating services

- Residents of Wayne County
- Individuals with Medicaid
- Pregnant and/or a caregiver with a child between the ages of 0-6 years
- Parent(s) struggling with mental health concerns
- Infant experiencing low birth weight, eating or sleeping difficulties, delays in developmental milestones, infants failing to thrive
- Children 0-6 with emotional or behavioral challenges
- Families that have experienced separation from their child
- Families that have experienced trauma or loss
